## 3. **TOTAL CAPACITY OFFERED**

3.1 Selection of ISTS Connected Solar PV Power Projects for total capacity of 2500 MW will be carried out through e-bidding followed by e-Reverse Auction process. The Solar PV Power Projects will be setup in the Koppal Solar Park at Koppal District of Karnataka, India [being developed by Solar Park Implementation Agency (SPIA)].

3.2 The interested Bidders are required to participate in the Request for Selection (RfS) for installation of Grid Connected Solar Photovoltaic Power Projects on Build-Own-Operate (B-O-O) basis under the scheme.

### 3.3 **Capacity of each Project:**

Solar PV Power projects are required to be designed for inter-connection at PSS substation at voltage level of 66 kV or above.

For each Project, the minimum Project capacity shall be **50 MW**. The maximum capacity that can be allocated to a Bidder shall be limited to **2500 MW**. The SPDs shall

demonstrate the contracted capacity at the injection point, as defined in the Commissioning procedure enclosed in Annexure-A and Appendix A-1.

**Project Configuration:**

The term "Project" shall have the meaning as defined in Section I of the RfS, and shall refer to the Project capacity as quoted by the bidder (at the time of bidding)/awarded to the Bidder (after issue of LOA).

The Bidder may however, set up the cumulative Project capacity at a single location, or he may configure the "Project" as being sub-divided into a number of "blocks", being set up at multiple locations within the Solar Park, if required. Following points are to be noted in this regard:

- a. The Project may consist of any number of blocks. The minimum voltage level for a single block shall be 66 kV.
- b. A single tariff shall be quoted by the Bidder for its response to RfS, irrespective of the number of Projects and each Project configuration.
- c. A Single Power Purchase Agreement shall be signed for one Project.
- d. The SPD may modify the Project configuration in terms of blocks, subsequent to issuance of LOA until the deadline of Financial Closure, subject to the condition as per (c) above. SECI shall not be responsible for any delay in reconfiguration of the Project, which might lead to delay in achieving financial closure and in-turn, commissioning of the Project.

The individual 'blocks' shall be pooled at a minimum voltage level of 66 kV. A single transmission line shall connect the above pooling Substation to the Delivery Point, which shall be the Metering Point as per the RfS. It may be noted that the said pooling station shall have a different meaning than the Pooling Station as defined in the RfS.

- e. One of the possible configurations of a Project, having separate locations for each block, is illustrated below, for elaboration:

**PROJECT CAPACITY: 50 MW**

4. **SOLAR PARK LOCATION**

The Solar PV Power Projects shall be located in the Koppal Solar Park at Koppal District of Karnataka, India. Approximately 13000 Acres of land on lease basis is available in Talakal and surrounding villages of Koppal District of Karnataka, India. Details regarding the Solar Park location are provided in Section VIII of the RfS.

The Projects shall be connected to the Grid system and Delivery Point, as defined in the RfS. The SPDs shall demonstrate the Contracted Capacity at the Interconnection Point, as defined in the Commissioning Procedure as enclosed in Annexure-A and Appendix A-1.

5. **PROJECT SCOPE & TECHNOLOGY SELECTION**

The SPD shall set up Solar PV Project(s) in line with Clause 3.7, at its own cost and in accordance to the provisions of this RfS document. Interconnection Delivery point will be at the Grid substation and therefore from Generators' substation/switchyard, transmission line will be in the scope of SPIA.

All approvals, permits and clearances required for setting up of the Project including those required from State Government and local bodies shall be in the scope of the SPD. The Project to be selected under this RfS provides for deployment of PV Technology. However, the selection of Project would be technology agnostic within PV technology and crystalline silicon or thin film or CPV, with or without Trackers can be installed.

The SPD shall be required to follow the applicable rules regarding project registration with the State Nodal Agency in line with the provisions of the applicable policies/regulations of the State where the Project are being located. It shall be the responsibility of the SPD to remain updated about the applicable charges payable to the SNA under the respective State Solar Policy.

6. **MAXIMUM ELIGIBILITY FOR PROJECT CAPACITY ALLOCATION FOR A BIDDER**

Following conditions shall be applicable to the Bidders for submission of bids against this RfS:

- (i) A Bidder including its Parent, Affiliate or Ultimate Parent or any Group Company may submit a single bid for any quantity between (and including) **50 MW to 2500 MW**, in the prescribed formats.
- (ii) For each Project, the minimum Project capacity shall be **50 MW**. The total capacity to be allocated to a Bidder including its Parent, Affiliate or Ultimate Parent or any Group Company shall be up to **2500 MW**.
- (iii) The evaluation of bids shall be carried out as described in Section-V of RfS. The methodology for Allocation of Projects is elaborated in Section-V of RfS.
- (iv) In case the Bidder wishes to set up more than One Project, then the Projects would need to be physically identifiable for the Project Capacity with separate boundary wall, separate injection points and metering arrangement.

- (v) Multiple bids from same company including its Parent/ Ultimate Parent /Affiliates/Group Companies shall make all the bids submitted by the group invalid.
- (vi) Plot allocation inside the Solar Park will be conducted in line with details as provided in Section VIII of the RfS.

7. **CONNECTIVITY WITH THE GRID**

Refer Clause 4 of Section-VIII of this RfS.

8. **ENERGY SUPPLY BY SOLAR POWER DEVELOPER**

8.1 **Criteria for Energy Supply**

The Bidders will declare the annual CUF of the Projects at the time of submission of response to RfS, and the SPDs will be allowed to revise the same once within first year after COD. Thereafter, the CUF for the Project shall remain unchanged for the entire term of the PPA. The declared annual CUF shall in no case be less than 17%. It shall be the responsibility of the SPD, entirely at its cost and expense to install such number of Solar panels and associated equipment (including arrangement of extra land for such installation) as may be necessary to achieve the required CUF, and for this purpose SPD shall make its own study and investigation of the GHI and other factors prevalent in the area which have implication on the quantum of generation. SPD shall maintain generation so as to achieve annual CUF within + 10% and -15% of the declared value till the end of 10 years from COD, subject to the annual CUF remaining minimum of 15%, and within +10% and -20% of the declared value of the annual CUF thereafter till the end of the PPA duration of 25 years. The lower limit will, however, be relaxable by SECI to the extent of non-availability of grid for evacuation which is beyond the control of the SPD. The annual CUF will be calculated every year from 1st April of the year to 31st March next year.

8.2 **Shortfall in Generation**

If for any Contract Year, it is found that the SPD has not been able to generate minimum energy corresponding to the value of annual CUF within the permissible lower limit of CUF declared by the SPD, on account of reasons primarily attributable to the SPD, such shortfall in performance shall make the SPD liable to pay the compensation provided in the PSA (Power Sale Agreement) as payable by SECI to Buying Utility(ies)/ Discoms and shall duly pay such compensation to SECI to enable SECI to remit the amount to Buying Utility(ies)/ Discoms. This compensation shall be applied to the amount of shortfall in generation during the Contract Year. The amount of compensation shall be equal to the compensation payable (including RECs) by the buying utilities/ Discoms towards non - meeting of RPOs, which shall ensure that the Discom is offset for all potential costs associated with low generation and supply of power under the PPA, subject to a minimum of 25% (twenty-five per cent) of the cost of this shortfall in energy terms, calculated at PPA tariff.

The reference to the compensation for shortfall to enable SECI to remit the amount to buying utility(ies) and the amount being equal to the compensation payable by the buying utility(ies) for not meeting RPO is only a measure of damage. It shall not be construed that the compensation is payable by SPD only if the buying utility(ies) are

required to pay compensation for such not meeting of RPO or that the buying utility(ies) or the SPD shall be required to prove or establish such payment of compensation for not meeting the RPO.

SPD shall agree that the methodology specified herein above for calculation of liquidated damages payable by the SPD for shortfall in generation is a genuine and accurate pre-estimation of the actual loss that will be suffered by SECI. SPD shall further acknowledge that a breach of any of the obligations contained herein result in injuries and that the amount of the liquidated damages or the method of calculating the liquidated damages specified in this document is a genuine and reasonable pre-estimate of the damages that may be suffered by the SECI in each case specified under this Agreement.

However, this compensation shall not be applicable in events of Force Majeure identified under the PPA with SECI, affecting supply of solar power by the SPD.

### 8.3 **Excess Generation**

Any excess generation over and above 10% of declared annual CUF will be purchased by SECI at its discretion {without any obligation to do so} at a fixed tariff of 75% (seventy-five percent) of the PPA tariff, provided SECI is able to get any buyer for sale of such excess generation. However, the SPD shall inform at least 60 days in advance of such excess generation to SECI, to enable SECI take necessary actions for sale of this excess generated energy. SECI shall be required to intimate its approval/refusal to the SPD, for buying such excess generation not later than 30 days of receiving the above offer from the SPD. In the event the offer of the SPD is not accepted by SECI within the said period of 30 days, such right shall cease to exist and the SPD, at its sole discretion, may sell such excess power to any third party.

While the SPD would be free to install DC solar field as per his design of required output, including his requirement of auxiliary consumption, SPD will not be allowed to sell any excess power to any other entity other than SECI (unless refused by SECI).

In case at any point of time, the peak of capacity reached is higher than the rated capacity and causes disturbance in the system at the point where power is injected, the SPD will have to forego the excess generation and reduce the output to the rated capacity to ensure compliance with grid requirement.

### 8.4 **Offtake Constraints due to Transmission Infrastructure/ Grid Unavailability & Backdown**

- a. **Generation Compensation in offtake constraint due to Transmission Infrastructure not complete/ ready (Transmission constraint)**: After the scheduled commissioning date, if the Project is ready in all respects including transmission line to be established by SPD to connect to the grid but the necessary power evacuation/ transmission infrastructure is not ready, for reasons not attributable to the Solar Power

Developer, leading to offtake constraint, the provision for generation compensation is as follows.

Transmission Constraint	Provision for Generation Compensation
If the plant is ready in all respects but the necessary power evacuation/ transmission infrastructure is not ready, leading to offtake constraint.	<p><b>a.</b> The normative CUF of 19% (Nineteen Percent) or committed CUF, whichever is lower, for the period of grid unavailability, shall be taken for the purpose of calculation of generation loss. Corresponding to this generation loss, the excess generation by the SPD in the succeeding 03 (Three) Contract Years, shall be procured by SECI at the PPA tariff so as to offset this loss.</p> <p><b>b.</b> If the transmission delay is directly attributable to the organization building the transmission network and some penalty is imposed on him, then a part of that penalty may be utilized by SECI for compensating the generation loss.</p>

However, it is clarified that if the project is ready all respects for commissioning prior to the Scheduled commissioning date, but the offtake is constrained because of inadequate/ incomplete power evacuation infrastructure, no compensation shall be permissible.

- b. Compensation in offtake constraint due to Grid Unavailability:** During the operation of the project, there can be some periods where the project can generate power but due to temporary transmission unavailability the power is not evacuated, for reasons not attributable to the Solar Power Developer. In such cases the generation compensation shall be addressed by SECI in following manner:

Duration of Grid unavailability	Provision for Generation Compensation
Grid unavailability in a contract year as defined in the PPA: (only period from 8 am to 6 pm to be counted):	<p><b><i>Generation Loss = [(Average Generation per hour during the Contract Year) × (number of hours of grid unavailability during the Contract Year)]</i></b></p> <p>Where, Average Generation per hour during the Contract Year (kWh) = Total generation in the Contract Year (kWh) ÷ Total hours of generation in the Contract Year.</p> <p>The excess generation by the SPD equal to this generation loss shall be procured by SECI at the PPA tariff so as to offset this loss in the succeeding 3 (three) Contract Years.</p>

- c. **Offtake Constraints due to Backdown:** The SPD and Buying Entity shall follow the forecasting and scheduling process as per the regulations in this regard by the CERC. The Government of India, as per Clause 5.2(u) of the Indian Electricity Grid Code (IEGC), provides for status of “must-run” to solar power projects. Accordingly, no solar power plant, duly commissioned, should be directed to back down by a Discom/ Load Dispatch Centre (LDC). In case such eventuality of Backdown arises, including non-dispatch of power due to non-compliance with “Order No. 23/22/2019-R&R dated 28.06.2019 of Ministry of Power regarding Opening and maintaining of adequate Letter of Credit (LC) as Payment Security Mechanism under Power Purchase Agreements by Distribution Licensees” and any clarifications or amendment thereto, except for the cases where the Backdown is on account of events like consideration of grid security or safety of any equipment or personnel or other such conditions, the SPD shall be eligible for a Minimum Generation Compensation, from the Procurer, in the manner detailed below.

<b>Duration of Backdown</b>	<b>Provision for Generation Compensation</b>
Hours of Backdown during a monthly billing cycle.	<p><b><i>Minimum Generation Compensation = 100% of [(Average Generation per hour during the month) × (number of backdown hours during the month)]X PPA Tariff</i></b></p> <p>Where, Average Generation per hour during the month (kWh) = Total generation in the month (kWh) ÷ Total hours of generation in the month.</p>

The Generation Compensation is to be paid as part of the energy bill for the successive month after receipt of Regional Energy Accounts (REA)/SEA/JMR. No Trading Margin shall be applicable on this Generation Compensation provided under Clause 8.4 c above.

**Note:** Notwithstanding anything mentioned above, the provisions of Clause 8.4 of the RfS shall be applicable subject to the acceptance of the same by the respective Buying Utility in the Power Sale Agreement.

However, in extraordinary cases of unavoidable delays in signing the PPAs or PSA for any reason attributable to SECI, the effective date of PPA shall be the date as on 7 days from signing date of PSA for total capacity of respective project (i.e. date of issuance of LoA is 01.04.2020 and signing date of PSA is 10.07.2020, then in such case Effective Date of the PPA shall be 17.07.2020).

- 14.4 Back-to-back Power Sale Agreements (PSAs) in respect of all rights and obligation under the PPA between the SPD and SECI, will be executed by SECI with the Buying Entity for sale of solar power to buying entity, with the buying entity assuming all the obligations of SECI under the PPA. - (iv) In case of default in achieving above condition as may be applicable within the stipulated time, SECI shall be entitled to encash Performance Bank Guarantees/Payment on Order Instrument and shall remove the Project from the list of the selected Projects, unless the delay is on account of factors not owing to any action or inaction on the part of the SPD, or caused due to a Force Majeure as per PPA. An extension can however be considered, on the sole request of SPD, on advance payment of extension charges of INR 1,000/- per day per MW. This extension will not have an impact on the obligation of SPD to achieve commissioning by the Scheduled Commissioning Date of the Project. Subsequent to the completion of deadline for achieving financial closure, SECI shall issue notices to the SPDs who are not meeting the requirements of Financial Closure as per the RfS deadlines. The notice shall provide a period of 7 business days to the respective SPDs to either furnish the necessary documents or make the above mentioned payment of Rs. 1,000/MW/day. In case of part-commissioning of the Project, land corresponding to the part capacity being commissioned, shall be required to be demonstrated by the SPD prior to declaration of commissioning of the said part capacity. For example, a project of 70 MW may be commissioned in 2 parts: First being a part capacity of 50 MW and the remaining part capacity being 20 MW.

Similarly, part commissioning of a project of 110 MW capacity shall be done as follows: 1st part capacity=50 MW, 2nd part capacity= 50 MW or above and 3rd part capacity=10 MW. However, the SCD will not get altered due to part commissioning. Irrespective of dates of part commissioning or full commissioning, the PPA will remain in force for a period of 25 (twenty five) years from the SCD.

- a. The Scheduled Commissioning Date (SCD) for commissioning of the full capacity of the Project shall be the date as on **15 months** from the Effective Date of the PPA (for e.g. if Effective Date of the PPA is 07.04.2020, then SCD shall be 07.07.2021).
- b. The maximum time period allowed for commissioning of the full Project Capacity with applicable liquidated damages, shall be limited to the date as on **6 months** from the SCD or the extended SCD (if applicable) (for e.g. if SCD of the Project is 07.07.2021, then the above deadline for Project commissioning shall be 07.01.2022).

In case of delay in commissioning of the Project beyond the SCD until the date as per Clause 16.b.b above, as part of the liquidated damages, the total PBG amount for the Project shall be encashed on per-day-basis and proportionate to the balance capacity not commissioned. For example, in case of a Project of 240 MW capacity, if commissioning of 100 MW capacity is delayed by 18 days beyond the SCD, then the liquidated damages shall be: PBG amount X (100/240) X (18/180). For the purpose of calculations of the liquidated damages, 'month' shall be considered consisting of 30 days.
- d. In case the Commissioning of the Project is delayed beyond the date as per Clause 16.b.b above, the PPA capacity shall stand reduced/ amended to the Project Capacity commissioned and the PPA for the balance capacity will stand terminated and shall be reduced from the selected Project Capacity.

(ii) The SPD has adhered to the applicable Procedure in this regard as notified by the CERC/CTU, and

(iii) The delay in grant of connectivity/LTA by the CTU and/or delay in readiness of the ISTS substation at the Delivery Point, including readiness of the power evacuation and transmission infrastructure of the ISTS network, is a factor attributable to the CTU/transmission licensee and is beyond the control of the SPD;

The above shall be treated as delays beyond the control of the SPD and SCD for such Projects shall be revised as the date as on 30 days subsequent to the readiness of the Pooling point at PSS and/or Delivery Point at GSS and power evacuation infrastructure and/or operationalization of LTA. Decision on requisite extension on account of the above factor shall be taken by SECI.

In case of delay in commissioning of Project due to reasons beyond the reasonable control of the SPD, SECI may extend the SCD after examining the issue on a case-to-case basis.

16.d **EARLY COMMISSIONING**

In case SECI does not agree to purchase such energy, early part/full commissioning of the Project shall still be allowed and the SPD will be free to sell such energy to a third party, until SCD or the date of commencement of procurement of power from the Project as notified by SECI, whichever is earlier. However, in case the entire capacity is commissioned prior to SCD, SECI may purchase the generation at PPA Tariff, only in case the Discom agrees to purchase power from the Project at an earlier date, and at the PPA tariff plus trading margin.

17. **COMMERCIAL OPERATION DATE (COD)**

Commercial Operation Date (COD) shall be the date on which the commissioning certificate is issued upon successful commissioning of the full capacity of the Project. The

25-year tenure of PPA shall be as per the provisions of PPA. The following milestone dates may therefore be observed and may fall on separate dates

**(a) Interconnection with Grid:** This may be provided by the STU/ CTU/ SPIA (as applicable) on the request of the project developer, even if the project is only partially ready to facilitate testing and allow flow of power generated into the grid to avoid wastage of Power.

**(b) Commissioning of the Project:** This will be on a date, when the project meets the criteria defined for project commissioning. SECI may authorize any individual or committee or organization to declare the project commissioned on site.

Any energy produced and flowing into the grid before COD shall not be at the cost of SECI under this scheme and developers will be free to make short-term sale to any organization or individual. SECI may agree to buy this power as a trader if they find it viable outside this RfS.

- C.6 For meeting the above financial eligibility criteria, if the data is provided by the Bidder in a foreign currency, equivalent Indian Rupees of Net Worth and other financial parameters will be calculated by the Bidder using Reserve Bank of India's (RBI) reference rates prevailing on the date of closing of the accounts for the respective financial year.
- C.7 In case of any currency for which RBI reference rate is not available, Bidders shall convert such currency into US Dollar (USD) as per the exchange rates certified by their banker prevailing on the relevant date and used for such conversion. After such conversion, Bidder shall follow the procedure/ submit document as elaborated in Clause C.6 above.
- C.8 In case the response to RfS is submitted by a Consortium, then the financial requirement (both the Net-Worth and Liquidity requirements) to be met by each Member of the Consortium shall be computed in proportion to the equity commitment made by each of them in the Project Company.

For example, if two companies A and B form a Consortium with equity participation in 70:30 ratio and submit their bid for a capacity of 100MW, then, total Net-Worth to be met by the Consortium is Rs. 80 lakh x 100MW = Rs. 80 Crores. Minimum requirement of Net-Worth to be met by Lead Member A would be minimum Rs. 56 Crores and to be met by Consortium Member B would be Rs. 24 Crores. Similar methodology shall be followed for computation of liquidity requirement.

# SECTION - V

# BID EVALUATION AND SELECTION OF PROJECTS

1. **BID EVALUATION**

Bid evaluation will be carried out considering the information furnished by Bidders as per provisions specified in Section-III, Instructions to Bidders (ITB) of this RfS. The detailed evaluation procedure and selection of bidders are described in subsequent clauses in this Section.

2. **TECHNO-COMMERCIAL EVALUATION OF BIDDERS**

2.a **First Envelope (Technical Bid) Evaluation (Step 1)**

2.a.1 The first envelope (Technical Bid submitted online) of only those bidders will be opened by SECI whose required documents as mentioned at Clause No. 23.a, Section-III, Instructions to Bidders (ITB) of this RfS are received at SECI office. Bid opening (online) will be done only after the deadline for submission of Bank Guarantee and/or DDs/Pay order against Cost of RfS document and Bid opening processing fee.

For e.g., if the bid submission deadline is 18:00 hrs on 05.12.2019, the online bid opening will be conducted on 08.12.2019. In case of the above deadline being a holiday, the bids will be opened on the next working day.

2.a.2 Documents (as mentioned in the previous clause) received after the bid submission deadline specified in the Bid Information Sheet shall be rejected and returned unopened, if super-scribed properly with address, to the bidder.

2.a.3 Subject to Clause No. 22, Section-III, Instructions to Bidders (ITB) of this RfS, SECI will examine all the documents submitted by the Bidders and ascertain meeting of eligibility conditions prescribed in the RfS. During the examination of the bids, SECI may seek clarifications/ additional documents to the documents submitted etc. from the Bidders if required to satisfy themselves for meeting the eligibility conditions by the Bidders. Bidders shall be required to respond to any clarifications/ additional documents sought by SECI within 07 (seven) days from the date of such intimation from SECI. All correspondence in this regard shall be made through email/ ISN-ETS portal only. It shall be the responsibility of the Bidder to ensure that the email id of the authorized signatory of the Bidder is functional. The Bidder may provide an additional email id of the authorized signatory in the covering letter. No reminders in this case shall be sent. It shall be the sole responsibility of the Bidders to remove all the discrepancies and furnish additional documents as requested. SECI shall not be responsible for rejection of any bid on account of the above.

2.a.4 The response to RfS submitted by the Bidder shall be scrutinized to establish Techno-Commercial eligibility as per RfS.

2.b **Second Envelope (Financial Bid) Evaluation (Step 2)**

In this step evaluations of Techno-Commercially Qualified Bids shall be done based on the "First Round Tariff Bid" quoted by the bidders in the Electronic Form of Financial Bid. After this step, the shortlisted bidders shall be invited for the Reverse Auction.

- 2.b.1 Second Envelope (containing First Round Tariff) of only those bidders shall be opened whose technical bids are found to be qualified.
- 2.b.2 The Bidder including its Parent, Affiliate or Ultimate Parent or any Group Company will have to submit a single bid (single application) quoting a single tariff in Indian Rupee per kWh for all the Projects applied for. **The tariff has to be quoted in Indian Rupee per kWh up to two places of decimal only.** If it is quoted with more than two digits after decimal, digits after first two decimal places shall be ignored. (For e.g. if the quoted tariff is INR 2.337, then it shall be considered as INR 2.33).
- 2.b.3 In this step, evaluation will be carried out for each Project based on tariff quoted by Bidders.
- 2.b.4 On completion of Techno-Commercial bid evaluation, if it is found that the total aggregate capacity of the Solar PV Projects short-listed is lower than or equal to 2500 MW, then the procedure as elaborated in Clause No. 3.2 of this Section-V shall be followed.
- 2.b.5 On completion of Techno-Commercial bid evaluation, if it is found that only one or two Bidder(s) is/are eligible for the next stage, opening of the financial bid of the Bidder(s) will be at the discretion of SECI. Thereafter, SECI will take appropriate action as deemed fit.
- 2.b.6 If the first-round tariff quoted is same for two or more Bidders, then all the Bidders with same tariff shall be considered of equal rank/ standing in the order.
- 2.b.7 All Bidders with same tariff shall be eligible for reverse auction round (provided their rank is equal to or less than n<sup>th</sup> Bidder as mentioned in Clause No. 3.2 of this Section-V).
- 2.b.8 Ranking of bidders after Financial Bid Evaluation: Following illustrates an example of ranking of bidders after financial bid opening and evaluation

Bidder	Submitted Financial Bid	Ranking
B1	₹ 2.10 (Tariff in ₹/ kWh)	L1
B2	₹ 2.20 (Tariff in ₹/ kWh)	L2
B3	₹ 2.30 (Tariff in ₹/ kWh)	L3
B4	₹ 2.30 (Tariff in ₹/ kWh)	L3
B5	₹ 2.43 (Tariff in ₹/ kWh)	L4
B6	₹ 2.60 (Tariff in ₹/ kWh)	L5
B7	₹ 2.65 (Tariff in ₹/ kWh)	L6
B8	₹ 2.69 (Tariff in ₹/ kWh)	L7
B9	₹ 2.70 (Tariff in ₹/ kWh)	L8

3. **REVERSE AUCTION (STEP - 3)**

- 3.1 The reverse auction for each project shall be conducted through <https://www.bharat-electronictender.com> portal on the day as intimated by SECI to the eligible bidders.
- 3.2 The Total eligible bidders for the Project for reverse auction shall be decided as mentioned below:

Assuming

**T** = Total Techno-Commercially Qualified Bidders, and

**Sk** = Cumulative capacity till the 'k'th serial number bidder (**not the 'k'th rank bidder**) after ranking is done in ascending order from L1 onwards

$S_E =$ (Eligible capacity for award)	(i) In case $S_T \leq 2500$ MW, $S_E = 0.8 \times S_T$  (ii) In case $S_T > 2500$ MW, $S_E = 0.8 \times S_T$ subject to maximum eligible capacity being 2500 MW.	
$n = \{$	$T$ , if $T=m$ or $m+1$	Where <b>m</b> =Total number of techno-commercially qualified bidders (after ranking is done in ascending order from L1 onwards) such that ( $S_{m-1} < S_E$ MW and $S_m \geq S_E$ ) and $1 \leq m \leq T$
	$m+(T-m)/2$ , if $S_m \geq S_E$ and $T-m$ is even	
	$m+(T-m+1)/2$ , if $S_m \geq S_E$ and $T-m$ is odd	

**Total eligible Bidders for e-Reverse Auction = Bidders from Sl. No. 1 to Sl. No. n. For e.g. (Shortlisting of Bidders for reverse auction):**

Total bid capacity of techno-commercially shortlisted bidders =  $S_T=3700$  MW

Sl. No.	Techno commercially qualified Bidder	Rank	Capacity (MW)	T	m	$S_E$	n	Shortlisted Bidders
1	B3	L1	400	10	8	2500 MW	9*	B3
2	B5	L2	250					B5
3	B1	L3	300					B1
4	B4	L3	300					B4
5	B2	L4	500					B2
6	B6	L5	100					B6
7	B7	L6	350					B7
8	B8	L7	450					B8
9	B9	L8	450					B9
10	B10	L9	600					

\*n =  $8 + (10-8)/2=9$  as per above formula

- 3.3 At least one week prior to reverse auction, an advance intimation regarding the date and time of the reverse auction will be sent by e-mail to all the bidders whose technical bids have been opened and found to be qualified. However, from this advance intimation it shall not be construed by the bidders that they have been shortlisted for Reverse Auction. Further at least two hours before the schedule start time of Reverse Auction, a system generated email for invitation for Reverse Auction will be sent to all those bidders only who have been shortlisted based on the criteria mentioned at Clause No. 3.2 above.
- 3.4 Shortlisted bidders for Reverse Auction will be able to login into the ISN-ETS portal of reverse auction 15 minutes before the start time of reverse auction.
- 3.4.1 During the 15 minutes prior to start of reverse auction process, the respective tariff of the bidder shall be displayed on its window.
- 3.4.2 The minimum decrement value for tariff shall be INR 0.01 per kWh. The Bidder can mention its revised discounted tariff which has to be at least 01 (One) Paisa less than its current tariff.
- 3.4.3 Bidders can only quote any value lower than their previous quoted tariff taking into consideration the minimum decrement value mentioned in the previous clause. However, at any stage, increase in tariff will not be permissible. Bidders can improve their ranking by quoting the tariff lower than their last quoted tariff.
- 3.4.4 During reverse auction, the Bidder shall not have the option of changing the total project capacity while quoting tariff during reverse auction.
- 3.4.5 In the bidder's bidding window, the following information can be viewed by the bidder:
- a. Its tariff as the initial start price and there after last quoted tariff along with the project capacity for which the Bidder is qualified.
  - b. The list of all the Bidders with their following details: Pseudo Identity, last quoted tariff and project capacity
- 3.4.6 The initial auction period will be of 30 (thirty) minutes with a provision of auto extension by 08 (eight) minutes from the scheduled/ extended closing time. Such auto extension shall be effected if by way of reduction in tariff, a Bidder causes a change in its zonal placement at that instant. The 'zones' are as defined below:
- (a) Green Zone: This zone consists of the Bidders who may be allocated their full quoted Project capacity if the auction is closed at that instant.
  - (b) Yellow Zone: This zone consists of the Bidders who may be allocated a part of their full quoted Project capacity if the auction is closed at that instant.
  - (c) Red Zone: This zone consists of the Bidders who will not be awarded their quoted Project capacity if the auction is closed at that instant.

If no such change as described above is effected during the last 8 minutes of auction period or extended auction period, then the reverse auction process will automatically get closed.

#### 4. **L-1 MATCHING AND SELECTION OF SUCCESSFUL BIDDERS**

- i. At the end of the e-RA, the Bidder quoting the lowest tariff (L1 tariff) will be identified and shall be declared as Successful Bidder. In case of multiple Bidders quoting the L1 tariff, all such Bidders will be declared as Successful Bidders, upon the eligible capacity  $S_E$ .
- ii. In case the Eligible Capacity  $S_E$ , as per Clause 3.2 above, is not fully met by the Successful Bidder(S) as declared above, the remaining Bidders will be asked to match the lowest tariff as discovered above (“**L1 Matching**”).
- iii. During the L1 matching round, the lowest quoting Bidder (L-1) will be allotted its qualified project capacity followed by the next higher Bidder (L-2, L-3, ..., L-n at the end of e-RA) matching the L1 Tariff discovered after e-RA and so on, till the total project capacity (i.e.  $S_E$ ) is exhausted.
- iv. Mechanism for L1 matching (offline or through the ETS portal) will be intimated to the bidders prior to Bid Submission deadline.
- v. Note: The allocation of cumulative project capacity shall be closed at  $S_E$ . However, in no case, shall the capacity of a single Project selected under this RfS, be less than 50 MW. In case of the last selected Bidder, if the balance project capacity is less than the total capacity mentioned by the Bidder but greater than 50 MW, then the Project with highest preference (as mentioned in the Covering Letter) shall be awarded to the Bidder, subject to the maximum cumulative capacity not exceeding  $S_E$ , being awarded under the RfS.
- vi. During the L1 Matching round, in case a Bidder matches the L1 Tariff and is allocated a partial capacity as a result, it shall be mandatory for such Bidder to accept such partial capacity, even if such capacity being offered is lower than 50% of the total project capacity quoted by the Bidder, subject to such partial capacity being more than or equal to 50 MW. In case such partial capacity is less than 50 MW, such capacity will remain unallocated.
- vii. In case of a tie among two or more Bidders (i.e. their last quoted tariff being the same at the end of the e-RA), they will be considered in the chronological order of their last bid with preference to that Bidder who has quoted his last bid earlier than others  
In the above case, if the time of quote also become exactly same among the Bidders at a tie, then the ranking among these Bidders shall be done as follows:

**Step 1:** Lowest rank will be given to the Bidder who has quoted the lowest in Financial Bid (Electronic Form) and so on. If there is also a tie among any of these bidders, then the following step (Step 2) will be followed.

**Step 2:** Ranking will be done based on draw of lots

5. **ISSUANCE OF LoAs:**

At the end of selection process, a Letter of Award (LOA) will be issued to the successful Bidders for each Project. In case of a Consortium being selected as the successful Bidder, the LOA shall be issued to the Lead Member of the Consortium.

In case SECI is unable to find buyers/off-takers for the tariffs as discovered after the bidding process, SECI reserves the right to annul the bid process without any financial implications to any of the parties concerned.

In all cases, SECI's decision regarding selection of Bidder through Reverse Auction or other- wise based on tariff or annulment of tender process shall be final and binding on all participating bidders.

Reg: M/s \_\_\_\_\_(insert name of the PPA signing entity) (Project No. \_\_\_\_\_(insert project ID issued by SECI) – Issuance of Payment on Order Instrument for an amount of Rs. \_\_\_\_\_

Dear Sir,

1. The Ministry of New and Renewable Energy, Government of India vide its letter dated 12<sup>th</sup> March 2020 has decided that to facilitate the promotion of solar and wind power development and implementation of the project by the Solar and Wind Power Developers who have entered into financing and funding agreements with IREDA/REC/PFC, the security by way of PBG in the form of Performance Bank Guarantee given by the Developers be allowed to be substituted by Letter of Undertaking/ Payment on Order Instrument issued by Non-Banking Finance Companies under the control of the Ministry of New and Renewable Energy and Ministry of Power. SECI and other nodal agencies appointed by the Government of India with whom the power developers have entered into Power Purchase Agreement may accept the same in place of PBG. The Ministry of New and Renewable Energy vide letter dated 12.03.2020 has, inter-alia, decided as under:

**6. After carefully examining the matter, the Ministry have decided as follows:**

- b) (i) SECT or NTPC or any other implementing agency on behalf of MNRE (henceforth called implementing agencies) may release the Performance Bank Guarantee (PBG) of any project if RE developers are able to replace the same with Letter(s) of Undertaking to pay in case situation of default of RE developer in terms of Power Purchase Agreement (PPA) arises, from Indian Renewable Energy Development Agency Limited (IREDA) or Power Finance Corporation Limited (PFC) or REC Limited (REC), the three non-banking financial institutions under Ministry of New & Renewable Energy (MNRE)/ Ministry of Power (MoP). These three financial institutions - IREDA or PFC or REC may issue such Letter(s) of Undertaking to pay only after securing their financial interests taking into account the security(ies) available with them as per their policy and after due diligence. These non-banking financial institutions would ensure that the security(ies) available with them are enough to cover full risk/ or exposure, which may arise on account of issue of such Letter(s) of Undertaking. Such Letter(s) may be termed as "Payment on Order instrument" and will have same effect as that of a Bank Guarantee issued by any public sector bank. This "Payment on Order instrument" would have terms and

*conditions similar to that of any Bank Guarantee given by any public sector bank and would promise to pay the implementing agencies on demand within stipulated time.*

*(ii) RE developers can seek such Letters(s) by offering due security to the above mentioned three non-banking financial institutions mentioned above (IREDA, PFC & REC) for seeking replacement of their Bank Guarantees already pledged with the implementing agencies.*

*(iii) For future projects, RE developers would be at liberty to either pledge Bank Guarantee(s) or Letter(s) of Undertaking as stated above towards Performance Bank Guarantee.*

*(iv) The above decisions may be treated as amendments to the respective Standard Bidding Guidelines (SBG) (solar/wind) and notified accordingly.*

*(v) Implementing agencies shall not accept the instrument of 'Letter of Undertaking' as described above or in any other form, from any other non-banking financial institutions or bank, except IREDA, PFC & REC.*

2. It is to be noted that M/s. \_\_\_\_\_(insert name of the POI issuing Agency) (**IREDA/REC/PFC**) has sanctioned a non-fund based limit loan of Rs. \_\_\_\_\_ (Rupees \_\_\_\_\_ only) to M/s \_\_\_\_\_ under the Loan Agreement executed on \_\_\_\_\_ to execute Renewable Energy Projects.

Please note that Port SSL/ 443 should be enabled on proxy/firewall for HTTPS connectivity. Dial-up/ Broad and internet connectivity without Proxy settings is another option

## **SPECIAL NOTE ON SECURITY AND TRANSPARENCY OF BIDS**

Security related functionality has been rigorously implemented in ETS in a multidimensional manner. Starting with 'Acceptance of Registration by the Service Provider', provision for security has been made at various stages in Electronic Tender's software. Specifically, for Bid Submission, some security related aspects are outlined below:

As part of the Electronic Encrypted® functionality, the contents of both the 'ElectronicForms®' and the 'Main-Bid' are securely encrypted using a Pass-Phrase created by the Bidder himself. Unlike a 'password', a Pass-Phrase can be a multi-word sentence with spaces between words (e.g. I love this World). A Pass-Phrase is easier to remember, and more difficult to break. It is mandatory that a separate Pass-Phrase be created for each Bid-Part. This method of bid-encryption does not have the security and data-integrity related vulnerabilities which are inherent in e-tendering systems which use Public-Key of the specified officer of a Buyer organization for bid-encryption. Bid-encryption in ETS is such that the Bids cannot be decrypted before the Public Online Tender Opening Event (TOE), even if there is connivance between the concerned tender-opening officers of the Buyer organization and the personnel of e-tendering service provider.

**CAUTION:** All bidders must fill ElectronicForms® for each bid-part sincerely and carefully, and avoid any discrepancy between information given in the ElectronicForms® and the corresponding Main-Bid. For transparency, the information submitted by a bidder in the ElectronicForms® is made available to other bidders during the Online Public TOE. If it is found during the Online Public TOE that a bidder has not filled in the complete information in the ElectronicForms®, the TOE officer may make available for downloading the corresponding Main-

Bid of that bidder at the risk of the bidder. **If variation is noted between the information contained in the ElectronicForms® and the 'Main-Bid', the contents of the ElectronicForms® shall prevail.**

In case of any discrepancy between the values mentioned in figures and in words, the value mentioned in words will prevail.

**The bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted into the 'Time Locked Electronic Key Box (EKB)' after the deadline of Bid Submission, and before the commencement of the Online TOE of Technical Bid.** The process of submission of this Pass-Phrase in the 'Time Locked Electronic Key Box' is done in a secure manner by first encrypting this Pass-Phrase with the designated keys provided by SECI.

Additionally, the bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted to SECI in a sealed envelope before the start date and time of the Tender Opening Event (TOE).

There is an additional protection with SSL Encryption during transit from the client-end computer of a Supplier organization to the e-Tendering Server/ Portal.

### **OTHER INSTRUCTIONS**

For further instructions, the vendor should visit the home-page of the portal <https://www.bharat-electronictender.com>, and go to the **User-Guidance Center**

The help information provided through 'ETS User-Guidance Center' is available in three categories – Users intending to Register/ First-Time Users, Logged-in users of Buyer organizations, and Logged-in users of Supplier organizations. Various links (including links for User Manuals) are provided under each of the three categories.

Important Note: It is strongly recommended that all authorized users of Supplier organizations should thoroughly peruse the information provided under the relevant links, and take appropriate action. This will prevent hiccups, and minimize teething problems during the use of ETS.

### **SEVEN CRITICAL DO'S AND DON'TS FOR BIDDERS**

Specifically, for Supplier organizations, the following **'SEVEN KEY INSTRUCTIONS for BIDDERS'** must be assiduously adhered to:

1. Obtain individual Digital Signing Certificate (DSC or DC) of Class III well in advance of your tender submission deadline on ETS.
2. Register your organization on ETS well in advance of the important deadlines for your first tender on ETS viz 'Date and Time of Closure of Procurement of Tender Documents' and 'Last Date and Time of Receipt of Bids'.

Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of -- Marketing Authority (MA) [ie a department within the Supplier/ Bidder Organization responsible for responding to tenders], users for one or more such MAs, assigning roles to them, etc. It is mandatory to create at least one MA. This unique feature of creating an MA enhances security and accountability within the Supplier/ Bidder Organization

3. Get your organization's concerned executives trained on ETS well in advance of your first tender submission deadline on ETS.
4. For responding to any particular tender, the tender (ie its Tender Search Code or TSC) has to be assigned to an MA. Further, an 'Official Copy of Tender Documents' should be procured/ downloaded before the expiry of Date and Time of Closure of Procurement of Tender Documents. Note: Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. Official copy of Tender Documents is the equivalent of procuring physical copy of Tender Documents with official receipt in the paper-based manual tendering system.
5. Submit your bids well in advance of tender submission deadline on ETS (There could be last minute problems due to internet timeout, breakdown, etc.)
6. It is the responsibility of each bidder to remember and securely store the Pass-Phrase for each Bid-Part submitted by that bidder. The bidders are required to submit correct, valid and operative Pass-Phrase to decrypt either Technical Bid Part or Financial Bid Part in a separate sealed envelope before due date and time of submission of bid. In the event, the bids are not opened with the pass-phrase submitted by bidder, SECI may ask for re-submission/ clarification for correct pass-phrase. If bidder fails to submit correct pass-phrase immediately as requested by SECI, the Tender Processing Fee and Tender Document Fee, if applicable, shall be forfeited and bid shall not be opened, and EMD shall be refunded. No request on this account shall be entertained by SECI.
7. ETS will make your bid available for opening during the Online Public Tender Opening Event (TOE) 'ONLY IF' the status pertaining Overall Bid-Submission is 'COMPLETE'. For the purpose of record, the bidder can generate and save a copy of 'Final Submission Receipt'. This receipt can be generated from 'Bid-Submission Overview Page' only if the status pertaining overall Bid-Submission' is 'COMPLETE'

*NOTE: While the first three instructions mentioned above are especially relevant to first-time users of ETS, the fourth, fifth, sixth and seventh instructions are relevant at all times.*

#### **ADDITIONAL DOs AND DON'Ts FOR BIDDERS PARTICIPATING IN e-REVERSE AUCTION**

1. Get your organization's concerned executives trained for e-Reverse Auction related processes on ETS well in advance of the start of e-Reverse Auction.
2. For responding to any particular e-Reverse Auction, the e-Reverse Auction (i.e. its Reverse Auction Search Code or RASC) has to be assigned to an MA.

3. It is important for each bidder to thoroughly read the 'rules and related criterion' for the e-Reverse Auction as defined by the Buyer organization.
4. It is important to digitally-sign your 'Final bid' after the end of e-Reverse Auction bidding event.

**Pre-requisite for participation in bidding process**
